## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 9-12 and 14, drawn to a poppet valve assembly and housing, classified in class 251, subclass 82.
- II. Claims 13 and 15-18, drawn to a valve, ebb and flood tray, and transport rails, classified in class 47, subclass 62E.
- III. Claims 1-8, drawn to a greenhouse zone and a plant warehouse zone, classified in class 47, subclass 17.

Invention III and Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Invention III takes place in a greenhouse/warehouse environment and does not require the valve particulars of Inventions I and II. The subcombination has separate utility such as Inventions I and II can be applied to irrigation in an outdoor field environment for weir control.

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such

as control of irrigation in an amusement part or a non-plant nurturing environment. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group III is not required for Groups I and II, and the search for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
